

Week 20 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

between 07:00 hours Monday 13 May 2019 and 07:00 hours Monday 20 May 2019

Notes

There was 1 exceedance of the construction noise limits during this week of monitoring at 16 Mary's Terrace and Colepark Road. The audio file for this exceedance could not be retrieved due to a technical fault with the monitoring equipment. Due to this the source of the exceedance could not be identified.

- Measured LAeq,1hr - Averaged noise levels over 1-hour period.
- Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.
- Construction Noise Level (CNL) limits.
