

# Week 10 Unattended Noise Monitoring Reports

## Summary of Weekly Noise Data and Exceedances of Permissible Levels

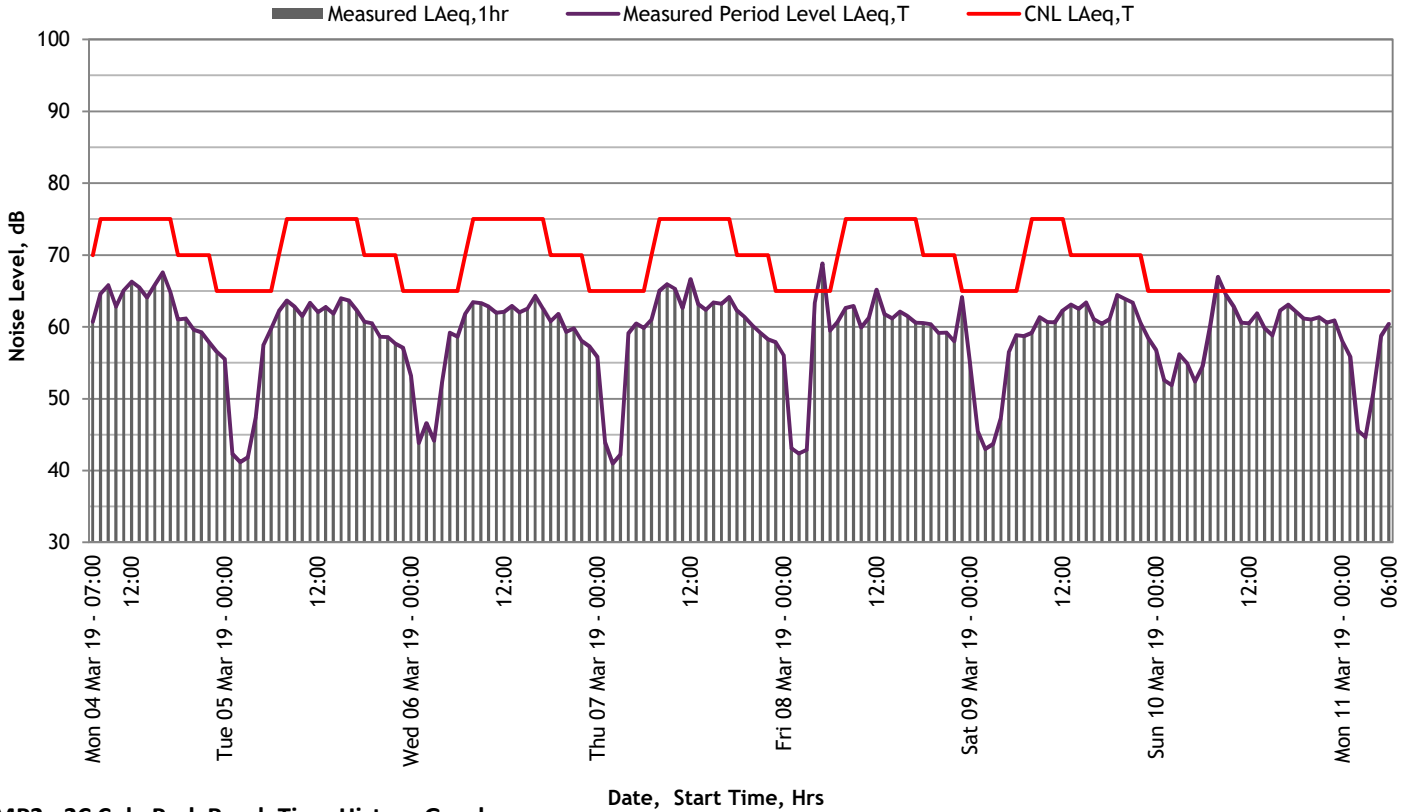

between 07:00 hours Monday 04 March 2019 and 07:00 hours Monday 11 March 2019

### Notes

There were 4 exceedances of the construction noise limits during this week of monitoring at both monitoring locations. 16 Mary's Terrace had 2 exceedances, one on Friday 8th March (Airplane flyover) and another on Sunday 10th March (Train passing by). Cole park road also had 2 exceedances both on Sunday 10th March, These were due to the movement of materials and use of hand tool on site.

- Measured LAeq,1hr - Averaged noise levels over 1-hour period.
- Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.
- Construction Noise Level (CNL) limits.
