Notice of Upcoming Work at Twickenham Station

15th July 2019

During this time, we will work without disrupting train and station operations and will use a line block to safely access the space in between platforms and lift in plant and materials over the railway lines using the tower crane. Preparation work will start from 10pm every evening and once the last train has departed the line block will commence at 1am and enable us to work until 5am, before clearing the site and completing work by 6am. The Sunday works will start at 9am until 5pm.

This work will involve the use of plant and equipment likely to create some noise disturbance. Fencing with a layer of echo barriers will be used to reduce the disturbance where practicable, and noise monitoring will be in place to manage the works.

Thank you in advance for your patience, and apologies for any inconvenience caused.
