

Week 31 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

between 07:00 hours Monday 26 July 2021 and 07:00 hours Monday 02 August 2021

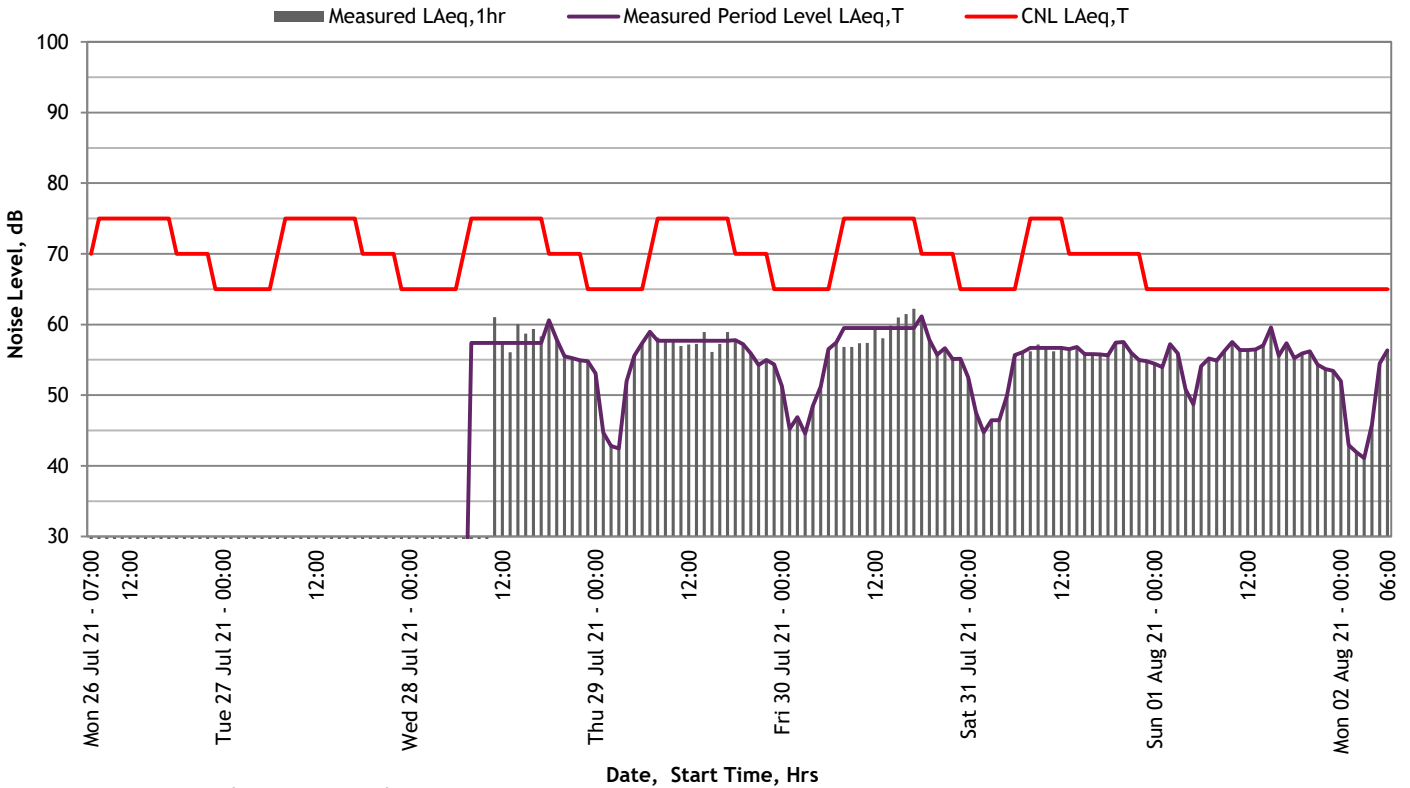

Notes

The missing data at the Mary's Terrace position this week was due to the noise monitoring equipment being removed for laboratory calibration. The noise monitor at Mary's Terrace was re-installed on Wednesday 28th July to the same position.

There were 0 exceedances of the construction noise limits at Cole Park Road (Footbridge).

- Measured LAeq,1hr - Averaged noise levels over 1-hour period.
- Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.
- Construction Noise Level (CNL) limits.
