

Week 21 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

between 07:00 hours Monday 20 May 2019 and 07:00 hours Monday 27 May 2019

Notes

There were 2 exceedances of the construction noise limits during this week of monitoring at 16 Mary's Terrace and Colepark Road. Both 16 Mary's Terrace exceedances were due to an unknown interference with the microphone. The Cole Park Road exceedance was due to birdsong in close proximity of the monitoring equipment.

— Measured LAeq,1hr - Averaged noise levels over 1-hour period.

— Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.

— Construction Noise Level (CNL) limits.
