

## Twickenham Gateway Community update | March 2017

Our plans to transform Twickenham Station are progressing. Please see inside an update of works planned in March and April.

These works are in preparation for us to start on site in August 2017.

The project will deliver a new station building around a public plaza. The station will feature lifts to the platforms, a significantly larger ticket office and additional cycle parking spaces.

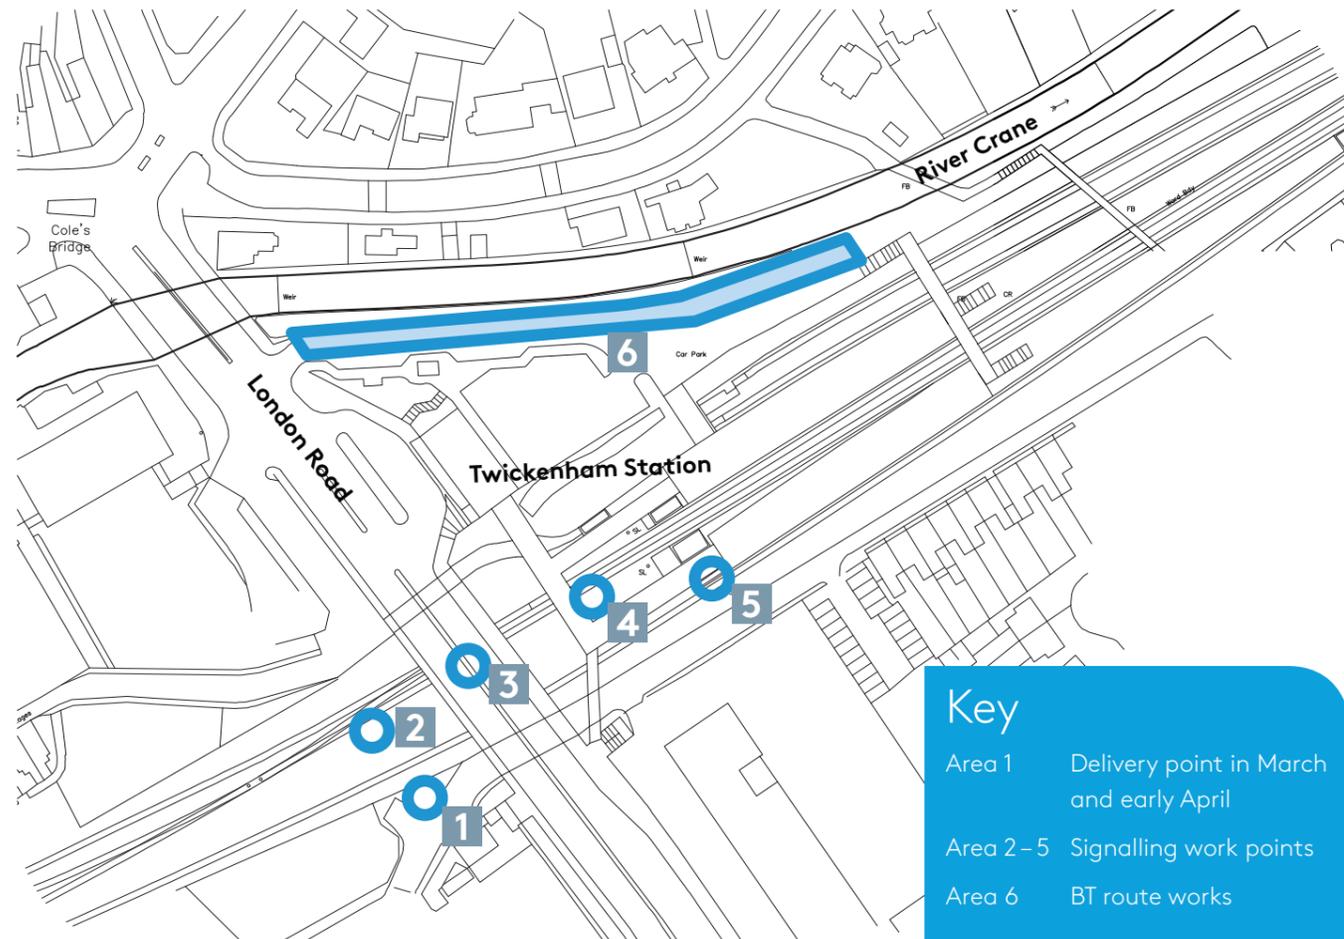

The plaza will include new shops, creating a modern gateway to Twickenham, as well as 115 much needed new homes next to the station. A pedestrian walk way to Moorhead is also being created.

Ahead of starting on site later this year, a number of 'mobilisation' works will commence shortly. These works are not the start of the project itself, but facilitate the start of the project later this year. These works will help to ensure the continued safe operation of the railway during the construction works.

More details of the specific works are outlined below, and on our website.

## Upcoming areas of works

## Overview of the work planned during March and April 2017

### End March and early April 2017

- Overnight delivery of equipment on Railway Approach (21 and 22 March 2017)
- Commence relocation of signal cabling
- Start work to install Location Boxes (LOC) which house signalling equipment
- Commence overnight work on signalling, in areas that cannot be accessed while railway is in use
- Overnight delivery of equipment on Railway Approach (3 and 4 April 2017)

### Weekends in April

On the 8-9 and 14-16 April (Easter weekend) the line is closed for other activity on the rail network. At this time we will:

- Continue signalling works, and move onto the new signalling system.
- Start to install BT equipment along Station Approach Road (Area 6) in the drawing (left).

### End April

Towards the end of April, we will complete the signalling works.

### Next stages

The next step is further preparatory 'mobilisation' works in mid-May. A further newsletter will outline information about this work.

To keep up to date with our work please visit [www.twickenhamforward.com](http://www.twickenhamforward.com)

During these works, our contractor Osborne will undertake steps to minimise noise disturbance. If you have any issues or would like to report something, call the Osborne 24/7 hotline on the number listed overleaf.

## How to get in touch with us

During the works, our contractor Osborne will provide a 24-hour 7-days a week manned telephone number. You can call them directly, and they will be able to put you in touch with the duty manager or relevant railway emergency number, depending on the nature of the call.

**Osborne 24/7 manned hotline:  
Call 07971 125180 for emergencies**
