

Week 25 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

between 07:00 hours Monday 20 November 2017 and 07:00 hours Monday 27 November 2017

Notes

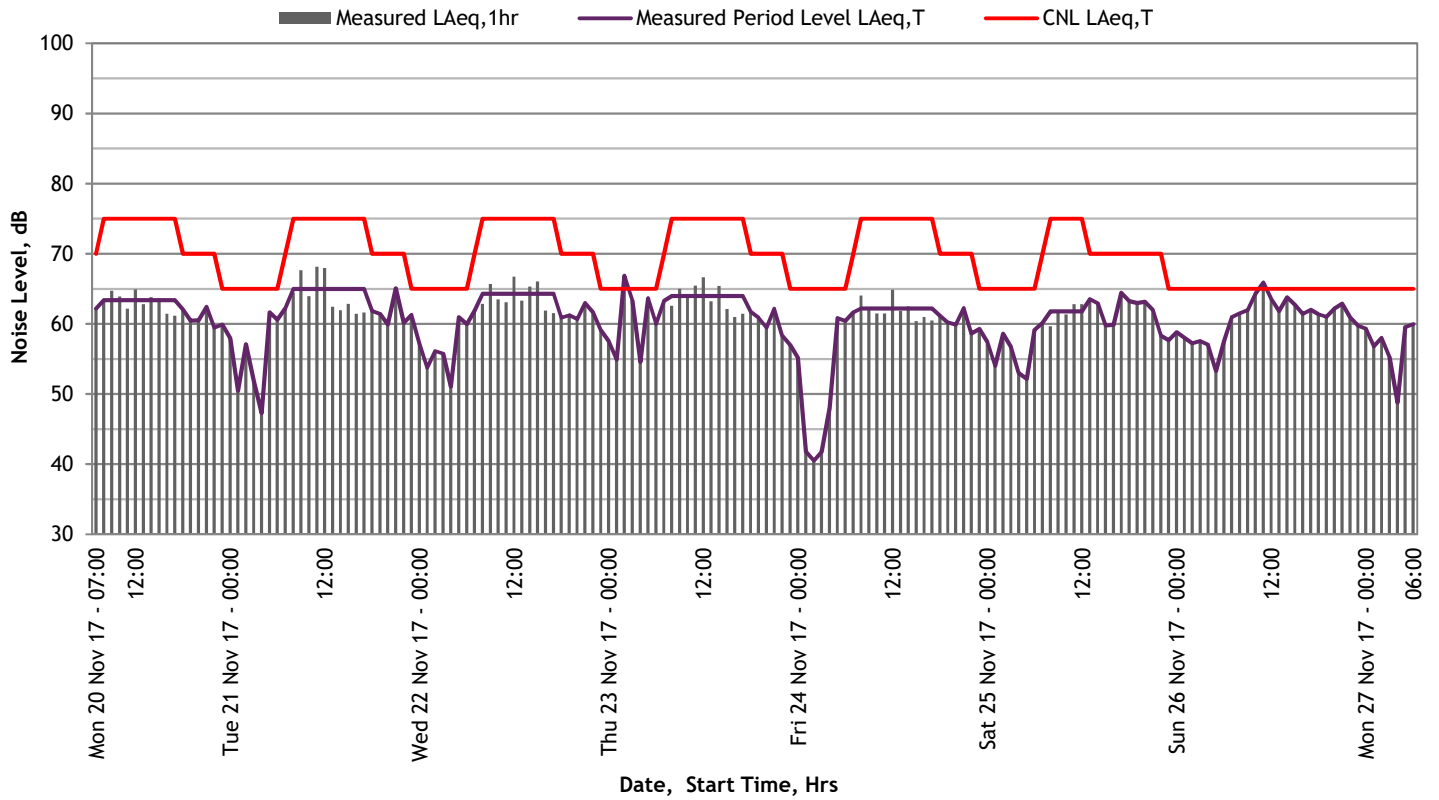

There were 2 exceedances at MP1 on Thu 23 November between 02:00-03:00 and Sun 26 November between 11:00-12:00. None of the exceedances were caused by site works, they were generated by external transport sources (motorbike and train, respectively).

— Measured LAeq,1hr - Averaged noise levels over 1-hour period.

— Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs

— LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.

MP1 - 16 Mary's Terrace: Time History Graph

MP2 - 2A Cole Park Road: Time History Graph
