

Week 7 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

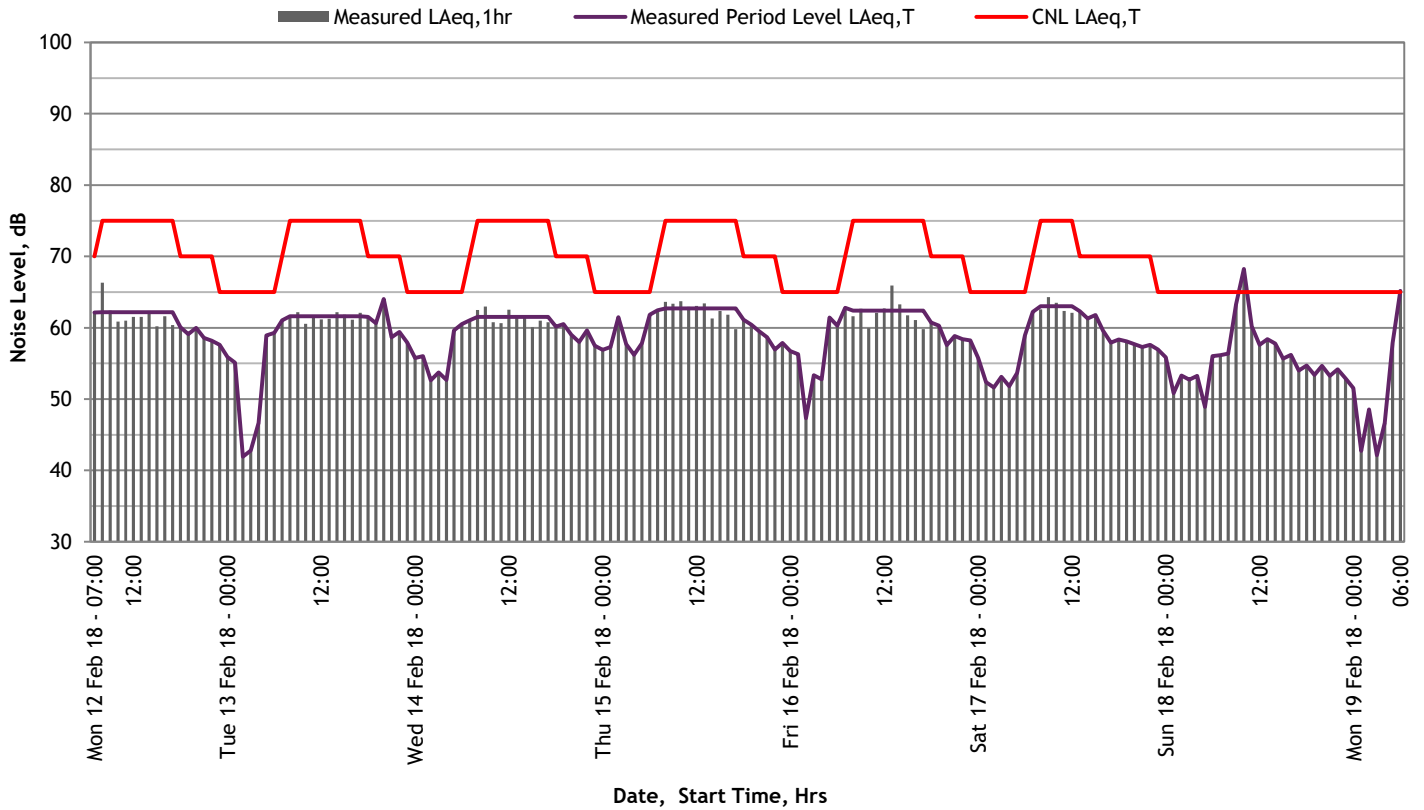

between 07:00 hours Monday 12 February 2018 and 07:00 hours Monday 19 February 2018

Notes

There were 2 exceedances at MP1 and 3 exceedances at MP2 over the weekend and onto Monday morning. The exceedances were due to site activity except the exceedance that occurred on Monday 19th at MP1 which was due to a freight train passing by on track.

- Measured LAeq,1hr - Averaged noise levels over 1-hour period.
- Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.
- Construction Noise Level (CNL) limits.

MP1 - 16 Mary's Terrace: Time History Graph

MP2 - 2A Cole Park Road: Time History Graph
