

Week 21 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

between 07:00 hours Monday 21 May 2018 and 07:00 hours Monday 28 May 2018

Notes

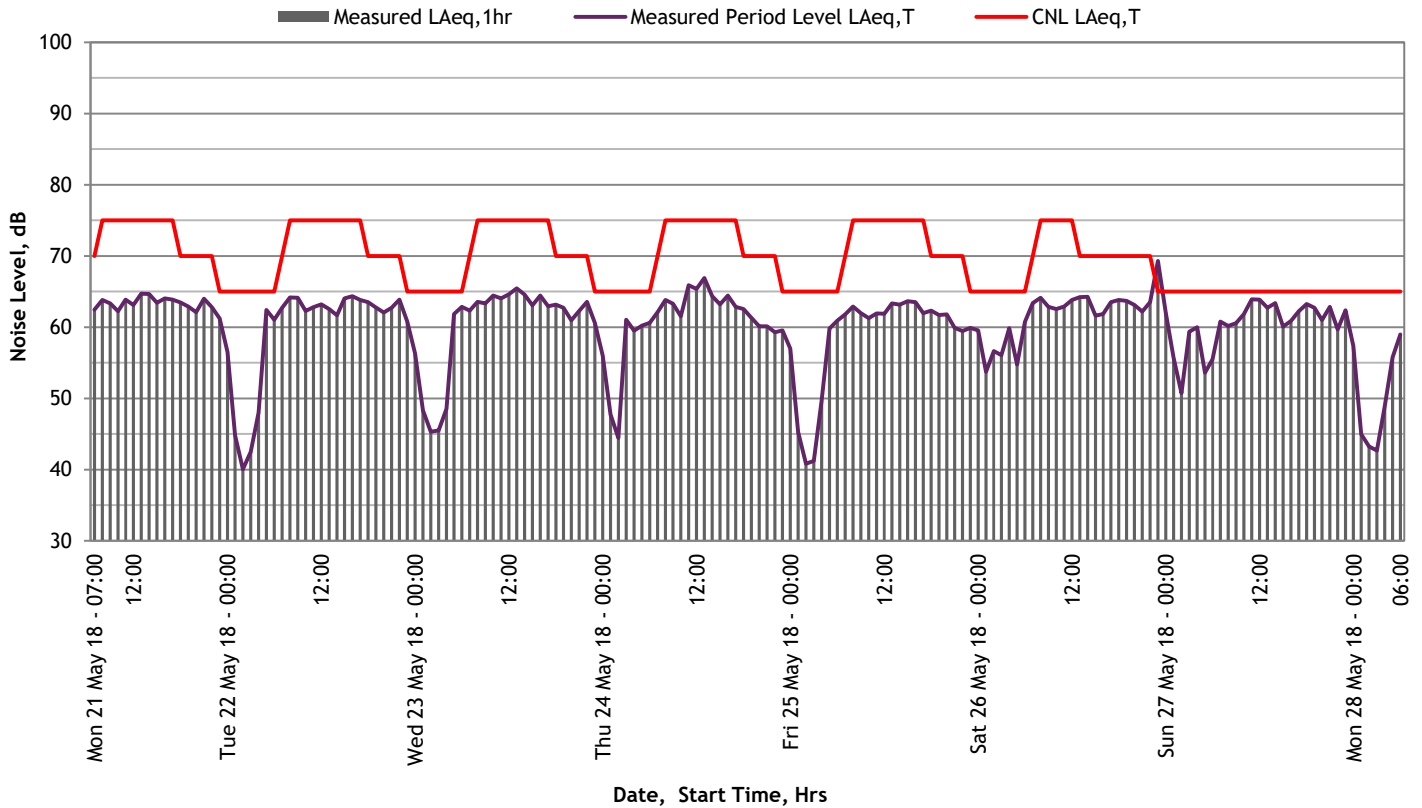

There were three exceedances during this week of monitoring, one occurring on Saturday 26th at 16 Mary's Terrace and two occurring at 2A Cole Park road on Thursday 24th and Saturday 26th. Audio recordings have found that all exceedances were not site related but due to bad weather.

— Measured LAeq,1hr - Averaged noise levels over 1-hour period.

— Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period goes above the Construction Noise Level (CNL) limit.

— Construction Noise Level (CNL) limits.
