

Week 29 Unattended Noise Monitoring Reports

Summary of Weekly Noise Data and Exceedances of Permissible Levels

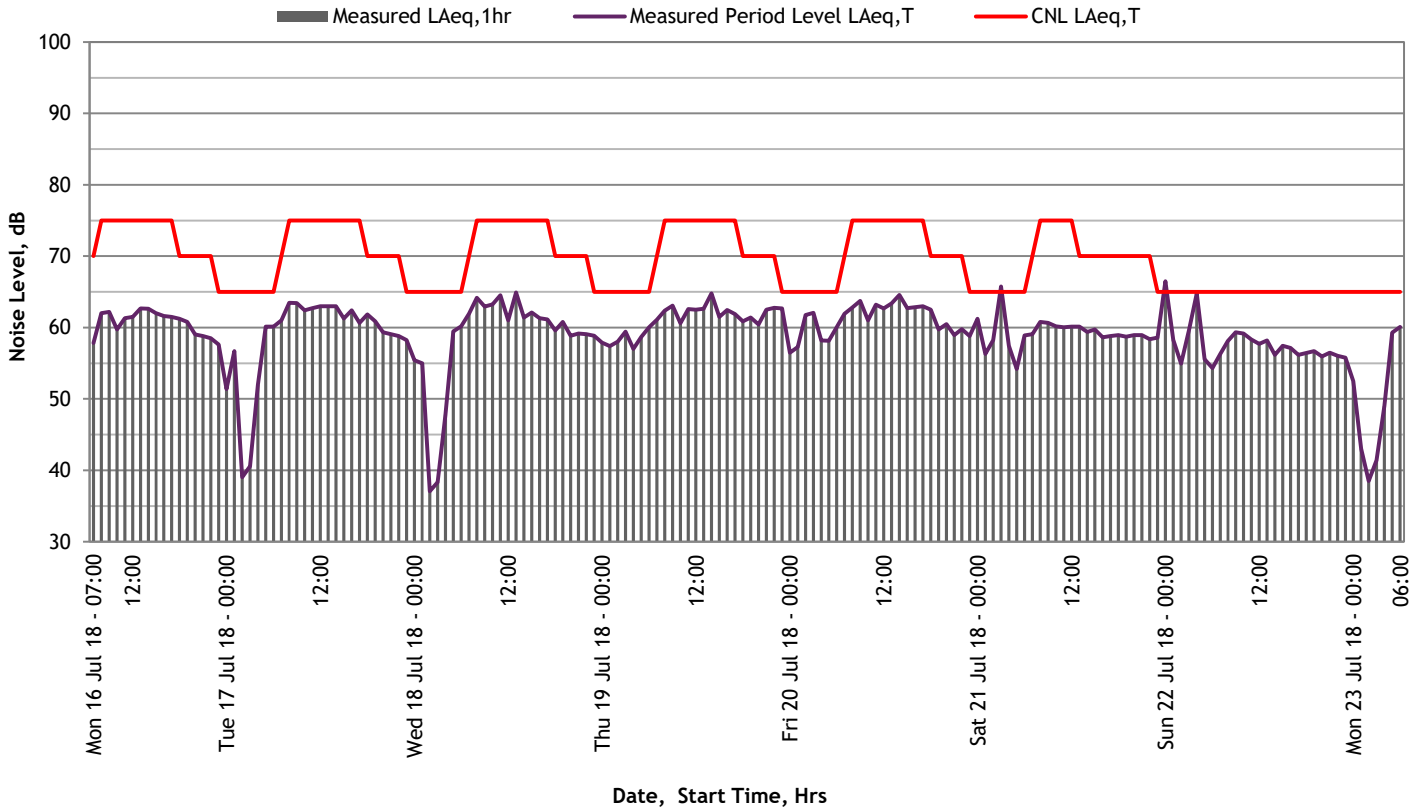

between 07:00 hours Monday 16 July 2018 and 07:00 hours Monday 23 July 2018

Notes

There were three exceedances during this week of monitoring with two occurring at 16 Mary's Terrace and one at 2C Cole Park Road. Noise levels at 16 Mary's Terrace were exceeded on Saturday 21st and Sunday 22nd. Due to a technical issue an audio recording was not captured on the 21st therefore the source of the exceedance cannot be identified. However audio recordings captured for the exceedance on the 22nd have confirmed it was due to site activity. The exceedance recorded at 2C Cole Park Road on Sunday 22nd was found to be not site related.

- Measured LAeq,1hr - Averaged noise levels over 1-hour period.
- Measured period LAeq,T - The line shown on the graph follows the averaged Leq level over the relevant assessment period (i.e. Monday 08:00-18:00hrs LAeq,10h, or Saturday 08:00-13:00hrs LAeq,5h). When an exceedance occurs, the noise level over a measured period above the Construction Noise Level (CNL) limit.
- Construction Noise Level (CNL) limits.
